SAFETY COVER

2022-23 Catalog

Protect what matters

TARA COVERS

ENJOY YOUR POOL MORE

The best way to protect your pool, your pocketbook and your loved ones is with a Tara safety cover. If you own a pool, you should own a safety cover. Designed to fit secure and built to last for years, a Tara safety cover delivers peace of mind.

WHY CHOOSE A TARA SAFETY COVER

For over 37 years we have specialized in building custom pool products. Your home, your pool and your needs are unique. That's why we use the latest technology to design a cover that will fit your pool perfectly. A Tara safety cover will give you a trouble free pool that looks beautiful all year.

Custom installation and removal tool locks your cover in place

Your safety cover will be designed to fit secure along raised walls and obstacles so there are no gaps

Double layer webbing is used across the entire safety cover

Vinyl spring covers protect your deck

Heavy-duty springs secure the cover to the deck of your pool

Box and X stitch reinforces intersections

Our designers use the latest drafting software to translate your pool's measurements into a safety cover that fits your pool precisely

TAN - HD MESH SAFETY COVER

WHAT MAKES OUR COVERS UNIQUE

Tara safety covers are manufactured in North Alabama and we custom build our covers to fit your unique pool. Strength is built into every pool safety cover we produce. Each one is built with commercial grade hardware and construction techniques. Features like our double layer webbing across the entire cover, triple stitching and box and x stitched intersections are usually only found on competitor's extreme safety covers. What that means for you, is that your Tara safety cover will stand up to the toughest conditions and provide years of solid protection.

Springs

- Heavy-duty springs secure your cover to the deck anchors
- Strongest available 302 Grade stainless steel
- 66% thicker than standard springs
- Resist stretching over time

Tara HD Springs

Competitor's Springs

Hardware

- Stainless steel buckles
- Solid brass anchors and end caps
- Anchors recess flush with deck when not in use
- Special installation and removal tool prevents unauthorized entry

Optional brass anchor flange for additional deck protection

Solid brass end-caps resist corrosion, prevent fraying and won't mar your deck like aluminum end caps

Construction

- Double webbing along edges to prevent fraying
- Webbing across top and bottom of cross-strapping for double strength
- Large, reinforcing Box and X stitching on strap intersections

Double layer webbing around perimeter and across the entire safety cover. (Six year old Tara cover shown)

Single layer webbing (Six year old competitor cover shown)

REGULAR MESH

GREEN - REGULAR MESH SAFETY COVER

REGULAR MESH

Our regular mesh cover offers effective protection at an affordable price. Water drains quickly from the surface, which prevents pooling. That makes it a great choice for families with children and small pets. Because of its light weight, a regular mesh cover is the easiest to install, remove and store. The mesh weave keeps out all leaves and debris but allows some dust and smaller particles to pass through. It has been tested to block up to 95% of sunlight and UV ray. The mesh fabric is made from polypropylene which is impervious to chlorine, mildew resistant, and has an extremely high tensile strength.

FEATURES:

- **95% Shade Factor**
- **UV Resistant Material**
- **Fastest Water Drainage - No Pump Necessary**
- **Reduces Debris**
- **Lightest Weight - 4.7 oz. per square yard**
- **Easiest to Handle**
- **High Tensile Strength**
- **Resists Mildew, Rot and Chemicals**

TAN - HD MESH SAFETY COVER

HD MESH

By choosing an HD Mesh safety cover you get everything you would in a regular mesh safety cover with added sun-blocking and strength. It is just as easy to install and maintain. The densely woven mesh fabric filters out nearly all dust and small particles. It also prevents sunlight from getting through. HD mesh blocks 99%* of sunlight to keep algae from growing. The tough 7.1 oz. fabric is still lightweight for easy installation and removal. Our HD Mesh safety cover satisfies the needs of almost every pool owner.

FEATURES:

- **99%* Shade Factor**
- **Enhanced UV-Protection**
- **Quick Water Drainage - No Pump Necessary**
- **Reduces Nearly All Debris**
- **Light Weight - 7.1 oz. per square yard**
- **Easy to Handle**
- **Higher Tensile Strength**
- **Resists Mildew, Rot and Chemicals**

*U.S. Patent No. 6,886,187 - 99% Shade

SOLID

GRAY - SOLID SAFETY COVER

Installation by R&R Pool Care, Lynchburg, VA

SOLID

Reduce your pool costs with the classic look of our Solid safety covers. Our solid covers feature a polyester mesh scrim sandwiched between two layers of PVC fabric to prevent water evaporation and chemical loss so you will save money and protect your investment. Designed to resist puncture, this sturdy material also resists chemicals, UV rays and mildew. An automatic pump or drain panel keeps water from puddling on the surface. A solid safety cover is the best choice for those who want their pool to stay perfectly clean all winter.

FEATURES:

- 100% Sunlight Blockage
- UV Resistant Material
- Low Maintenance
- Prevents 100% of Leaves and Debris
- Keeps Water Clean
- Preserves Pool Chemicals
- PVC Laminated Polyester Weave Resists Puncture
- Sold with Automatic Pump or Drain Panel

CHOOSE YOUR SAFETY COVER

Our safety covers are designed to fit your pool perfectly. To choose the best safety cover for your needs, consider what factors are most important to you. Whether it is water drainage, sun blocking, pool cleanliness or weight, the chart below shows how each cover measures up. Once you've settled on the best type of cover, choosing the best color is now much easier with the help of our visualization tools.
